

ARDOR ARBITER STARTER KIT

INSTRUCTIONS & ID CARD

MONSTRESS MAXIM #322:

**JUDGE WELL,
LEST YE JUDGE YE-SELF**

Monstress knows the pang of uncomfortable compromise, bad choices and back-sliding. We know how it is to watch our moral compass spin on the dashboard as we try to find our way. The pain one suffers when continuously ambivalent about one's actions or those of others is a lamentable but preventable affliction. We here at Monstress Productions have developed the **Ardor Arbiter Starter Kit** as a step towards a cure.

Hone your skills as a judge of actual intention by practicing out in the world on people, objects and situations. This starter kit emphasizes the poles of the sincerity continuum as these are the most easily identified for trainees. Advance to a level at which you can trust your own judgement, then apply this acumen to yourself in order to find a better way.

INSTRUCTIONS

Basic Instructions: While out in your everyday life, pay attention to the signals coming your way from signs, objects, utterances, and other such stimuli. Pay careful attention of your core reaction to particular signals: Is this sincere to me? Is it cruel? Is it neither?

Advanced Instructions: *While assessing your own actions and intentions, how do you truly feel? Are you giving your all? Are you going through the motions? Is the money too good to leave for silly little scruples?*

INSTRUCTIONS, CONT'D

When you have assessed said signal, use enclosed permanent marker to circle the appropriate descriptor on one of the enclosed Ardor Citations. If there is a specific attribute not listed, please write your own the provided blank.

Peel the protective backing from the citation and apply it firmly to a clean surface on or near signal source.

Reflect on any gleaned insight.

WARNING FOR ADVANCED ARBITRATION!!

Do not for any reason apply the Ardor Citation directly onto skin. Removal proves... painful. We strongly suggest using the bathroom mirror.
